

### APPLICATIONS

**Eni i-Sint racing tec 10W-60** is a high performance fully synthetic lubricant containing PAO and high performance additives to meet the needs of 4-stroke engines with high specific power.

### CUSTOMER ADVANTAGES

- The raw materials present in the formulation have been carefully selected to give the product a remarkable resistance to the high mechanical stresses to which it is subject during the sport events.
- The particular viscosimetric characteristics of the product allow achieving suitable viscosity values in a wide temperature range.
- The special synthetic bases used guarantee excellent resistance to high operating temperatures and excellent product stability.
