Motorcycle lubricants and fluids
The Eni i-Ride lubricants range is born out of the Agip tradition and experience, consolidated by Eni’s cutting edge research and technology.

Eni’s research has produced a high-performance lubricant line for motorbikes and scooters, capable of guaranteeing power, exceptional results, and reliability for any type of engine.

The effort and expertise of our researchers allow us to reach **high levels of technological excellence** and formulate growingly innovative products capable to satisfy the requirements of any user.

Eni i-Ride is a complete range of special highly technological products that guarantee an excellent reliability, ideal even for the most demanding motorcycle riders.

All our products undergo severe engine testing in order to respond to the highest quality and performance standards (API, JASO).
Innovation, technology, excellence and customized quality for each type of motorcycle: this is Eni
RACING

**MOTOR OILS**

Lubricants designed to guarantee an excellent reliability and motor protection specially in the extreme conditions of motor sports competitions.

- **TRANSMISSION FLUIDS** p. 25
- **FORK AND SUSPENSION OILS** p. 26
- **BRAKE FLUIDS** p. 28
- **COOLANTS** p. 29
TRANSMISSION FLUIDS
- Rotra Bike 80W-90
- Rotra Bike Synth 75W-90

MOTOR OILS
- i-Ride Racing 10W-60
- i-Ride Racing 5W-40
- i-Ride Racing 2T

BRAKE FLUIDS
- Brake Fluid DOT 5.1

FORK AND SUSPENSION OILS
- Fork Oil 5W
- Fork Oil 7.5W
- Fork Oil 10W
- Fork Oil 15W

COOLANTS
- Antifreeze Bike S

Brochure i-Ride - i-Ride Racing
Top Synthetic

**PERFORMANCE:**
- Resistance to high temperatures
- High stability
- Exceptional detergency

**i-Ride Racing 10W-60 API SL JASO MA, MA2**

Top Synthetic

**PERFORMANCE:**
- Resistance to high temperatures
- High stability
- Exceptional detergency

**i-Ride Racing 5W-40 API SL JASO MA, MA2**

Top Synthetic

**PERFORMANCE:**
- Low exhaust smoke
- Low residue and deposits
- High compatibility with state-of-the-art catalytic converters
- Reduced power loss
- Maximum anti-seize protection

**i-Ride Racing 2T JASO FC/FD HUSQVARNA ISO-L-EGD**
MOTOR OILS
Lubricants designed to guarantee an excellent motor reliability and protection; suitable for long highway driving and urban traffic use.

COOLANTS
- Antifreeze Bike S

MOTOR OILS
- i-Ride Moto 15W-50
- i-Ride Moto 10W-40
- i-Ride Moto 10W-30
- i-Ride Moto 20W-50
- i-Ride Special 20W-50

FORK AND SUSPENSION OILS
- Fork Oil 5W
- Fork Oil 7.5W
- Fork Oil 10W
- Fork Oil 15W

BRAKE FLUIDS
- Brake Fluid DOT 5.1
When distances covered are long, a long term motor protection is necessary.

Our oils guarantee:

- Reduced lubricant consumption
- Compositions designed for fuel economy

**Mineral**

**i-Ride Moto 15W-50**  
API SL  
JASO MA, MA2

**PERFORMANCE:**
- Resistance to stress
- Recommended for multi-valve engines
- Guarantees motor protection and durability

**Synthetic Technology**

**i-Ride Moto 10W-40**  
API SL  
JASO MA, MA2

**PERFORMANCE:**
- Guarantees a high mileage
- Protects from wear
- Reduces carbon deposit
- Recommended for touring vehicles
**i-Ride Moto 10W-30 API SL JASO MA, MA2**

**Synthetic Technology**

**PERFORMANCE:**
- High wear protection
- Guarantees the integrity of moving parts
- Excellent detergency and dispersancy

**i-Ride Moto 20W-50 API SL JASO MA, MA2**

**Top Synthetic**

**PERFORMANCE:**
- High thermal and oxidation stability; maximum mechanical stability
- Excellent detergency and dispersancy
- Reduces the formation of sludge, lacquer, and deposits
- Recommended for sporty driving

**i-Ride Special 20W-50 API SJ JASO MA, MA2**

**Mineral**

**PERFORMANCE:**
- Excellent detergency and dispersancy
Products designed for extreme driving conditions; guarantee smooth gear changes and ease of use for wet clutch.

**MOTOR OILS**
Lubricants specifically developed to guarantee the highest possible performance, resistant to the strongest stress in the OffRoad use.

**TRANSMISSION FLUIDS**  p. 25

**FORK AND SUSPENSION OILS**  p. 26

TRANSMISSION FLUIDS

• Antifreeze Bike S

COOLANTS
May I use a Street & Touring lubricant in an OffRoad motorcycle?

Yes, for non-intensive use Street & Touring lubricants may be used for an OffRoad motorcycle, however in high stress conditions the OffRoad lubricant guarantees better performances. The Eni lubricant, specifically designed for such motorcycles, better supports wet clutch in all conditions, avoiding transmission slipping.
SCOOTER

Products designed to limit the effects of Stop&Go operation typical of the urban use.

MOTOR OILS

Motor oils for scooters designed for an extensive urban use and also suitable for extra-urban use.

- Fork Oil 10W
- Fork Oil 15W
<i-Ride Scooter> 2T  API TC  JASO FC
Mineral
PERFORMANCE: - Minimizes formation of deposits and lacquer
- Ensures cleansing of the exhaust ports
- Reduces exhaust smoke

<i-Ride Scooter> 10W-40  API SJ  JASO MA, MA2
Synthetic Technology
PERFORMANCE: - Reduces the formation of carbon deposit
- Suitable for stop & go use
- Extended oil change intervals
- Suitable for urban and extra-urban use
- Caters for wide operating temperature range

<i-Ride Scooter> 15W-50  API SJ  JASO MA, MA2
Mineral
PERFORMANCE: - Particularly recommended for urban use
- High detergency
- Reduced lubricant consumption

<i-Ride Scooter> MB 10W-30  API SJ  JASO MB
Synthetic Technology
PERFORMANCE: - Minimizes friction
- Specific for scooters requiring JASO MB - standard lubricants
Eni completes its range of motor oils with ancillary products formulated to satisfy the everyday biker needs that cares for the maintenance of his/her vehicle and wants the best performance in any use condition.

Eni relies on its Research Center with its state of the art equipment, to study innovative products that guarantee quality, reliability, and top-notch performances.
Eni Chain Lube is a high-performance, water-resistant motorbike chain lubricant with excellent anti-fling characteristics. Contains colloidal P.T.F.E. for added wear and corrosion resistance.

Why use it?
- Eni Chain Lube is a high-performance, water-resistant motorbike chain lubricant with excellent anti-fling characteristics. Contains colloidal P.T.F.E. for added wear and corrosion resistance.
ROTRA

Lubricants designed to satisfy the demands of manual gearboxes. Suitable to be used also for scooters. Its specific composition caters for a high protection of the gearings (in particular for long distances), as well as consistent performance in time.

Why use it?

- Reduces friction and wear of the gearings.
- Protects from corrosion and rust.
- Eliminates/reduces noise and vibrations.
- Prevents the formation of foam.

FORK OIL

Lubricants designed for use in motorcycle/scooter forks and suspensions, suitable for both road and OffRoad performance.
May I mix two different Fork Oils?

Most certainly: this will allow you to obtain intermediate viscosities and have the exact shock absorption desired.

Our lubricants are formulated for an exceptional performance in suspensions, allowing:

- Quick release of trapped air.
- Maximum corrosion protection of inner parts.
- Performance stability against temperature changes.
BRAKE FLUID

Special fluids designed for braking systems and for servo motor commands for hydraulic clutches. Our line guarantees maximum efficiency and quickness of braking action.

The specific composition prevents the dangerous phenomenon of vapour lock, ensures perfect efficiency of the braking circuit and guarantees chemical compatibility with the rubber seals.
Ready-to-use, biodegradable coolant; nitrite-, amine-, phosphate free. Designed to be used as is, without dilution in water, directly in the cooling circuits of scooters and motorcycles. Formulated with the innovative organic additive technology O.A.T. (Organic Acid Technology). Specifically recommended for extended change intervals.

**Antifreeze Bike S**

- **CUNA NC 956-16 (ed. '12),**

**Antifreeze Bike S**

- **Organic Technology O.A.T. (Organic Acid Technology)**

**PERFORMANCE:**
- Freezing protection
- Corrosion protection
- Extended coolant change intervals
Mineral and synthetic oil for lubrication of two-stroke engines, either with or without oil mixer.

Ensures motor protection and detergency of inner parts, for all small motors that operate under moderate stress conditions.
